

# How do I reorder the details?

1. Right-click on a detail and select **Reorder attributes...**
2. Select a detail and use **Move up** and **Move down** to change the order.

The screenshot shows a 'Reorder items' dialog box with a blue header bar containing a close button (X) and a maximize button (square). The main area is a list of attributes: dealer, Manufacturer, Type, Serial number, aantal cylinders, RPM, Color, Rated output, Year of build, IMO code, In use, and Price. To the right of the list, there are two blue buttons: an upward arrow (^) and a downward arrow (v). At the bottom of the dialog, there are two buttons: 'Save & close' (blue) and 'Close' (white).
