

What does the fixed interval option do?

The fixed interval option can be selected when you create a:

- maintenance task.
- safety drill.

The following table clarifies what this option does.

A task or a drill has an interval of one month.

| | No fixed interval | Fixed interval |
|--------------------------|-------------------|----------------|
| Expiration date | 1 January | 1 January |
| Date of first execution | 3 January | 3 January |
| Next expiration date | 3 February | 1 February |
| Date of second execution | 6 February | 6 February |
| Next expiration date | 6 March | 1 March |

With a fixed interval, the next expiration date is always calculated from the first expiration date.
