

How do I copy all certificates in a category?

1. Right-click a certificate category and click **Copy...**
2. Select the location where you want to copy the certificate category to.

3. Click **Save & Close.**

The history of the certificates will also be copied.

A location is not displayed during the copying process if:

- the destination has no module Certificates.
- the source has a docking certificate and the destination does not.
