

How do I add the expected delivery date to an order line?

1. Open a purchase order.
2. Open the **Suppliers** tab.
3. Scroll to the right and click the cell **Delivery Date** for the required part.
4. Select a date.

The screenshot shows a table with columns for 'cy', 'Delivery Date', and 'Comment'. The 'Delivery Date' cell is active, displaying a date picker. The date picker shows a calendar for March 2023, with the date 22 selected. The calendar includes a header for 'Today' and a grid of days from 1 to 28. The date 22 is highlighted in a grey box.

5. Click **Save & close**.

You can select multiple order lines using Ctrl or Shift.
