

How do I synchronise manually (online sync)?

To create and save a synchronisation package:

1. Go to the module **Synchronization**.
2. Select the location.
3. Click on **Export last** or on **Create package**.
4. Select **Online**.
5. Click on **Ok**.

To load a synchronisation package:

1. Go to the module **Synchronization**.
2. Select the location.
3. Click on **Load package**.
4. Select **Online**.
5. Click on **Ok**.
